

AUTOMATION

The **SGM Automation** engineering team builds automated systems from A to Z. You can either pick and choose the services you need, or the Automation division can provide turnkey solutions. In each case, we first take the time to listen to your needs and understand them before the beginning of the project. SGM Automation offers safe and custom technological solutions to optimize the efficiency of your automated systems.

OUR SERVICES :

- Control Panels Design and Manufacture
- Monitoring Systems Design and Manufacture
- Network Architecture Design and Building
- Instruments Installation and Calibration
- Risk Assessment and Machine Securing
- Upgrade of Existing Automatism
- 24/7 Assistance

APPLICATIONS :

- New Factory Construction
